Subject: Word Version of Text of Draft Baseline Human Health Risk Assessment (BHHRA)

Chip and Kristine,

Per your letter dated July 21, 2011, follow up email on July 22 and subsequent conversations we've had with you over the telephone, LWG is providing to EPA the Word version of the text of the draft Baseline Human Health Risk Assessment (BHHRA). We are providing this draft document to EPA in order to facilitate your comment process on the document. We understand that you will be making your changes in "redline" and providing those changes to LWG. We further understand that this "redline" process will replace the traditional EPA comment process on a line reference basis, and that LWG will be responsible for finalizing the BHHRA, using the regular LWG/EPA process for resolving comments.

Finally, through providing this Word version of the text, we seek EPA's concurrence that any directives in EPA's July 21, 2011 letter, July 22 email and follow up conversations have been met.

Please let us know if your understanding is different.

Thank you,
Jen Woronets ☺
